2017 Action Information FRL-9961-84-OCSP (DRAS Q2 17 PRD).docx
2017 Action Information FRL-9961-05-OCSP (PIDS Q2 17 PRD).docx

I was asked about the Action Information sheets and thus I am including two examples (a DRA and a PID) that we put together for Q2. It should give all of you an idea of the level of detail that is required. Thanks.

Subject: Revised FRN Process

All,

PRD has been working to develop a new FRN process (see attached) with Mellonie Stewart (PRD's NOWCC) being the point person for this new process. We have designed this process to address some of the common issues we have been having with FRN development. PRD plans to use this process for the Q3 Registration Review FRNs. The new process will utilize Sharepoint to develop the FRNs and Action Information Sheets.

We are hopeful that this process will make the development of FRNs easier and more streamlined. Please direct any questions on this new process to Mellonie and myself. Thanks and have a great day.

Charles “ Billy” Smith
